being taken into account when attempts are made to forecast where that delegation will go.

About the only setback that Hoover managers are willing to concede possible today is that President Coolidge might be precluded from the picture by his own friends or by leaders who are dead set against the Commerce Secretary. They are going on the theory, however, that Mr. Coolidge has definitely eliminated himself and one of those who is most outspoken in regard is Senator Moses of New Hampshire, who is expected to be permanent chairman of the convention.

On his arrival here today, the Senator talked over the situation with Good at Hoover headquarters and later remarked: "It's Hoover on the first ballot."

"I'm not saying he'll have the necessary 245 votes," he went on, "but he'll be so close to it that he

Mellon Again Calls Hoover Best in Race

**WASHINGTON, June 7.
(Exclusive)—Nothing in re-**
cent political developments warrants a change in his original opinion that Herbert Hoover constitutes the best candidate for the Republican nomination. Secretary of the Treasury Mellon, leader of the Pennsylvania delegation at the Kansas City convention, declared today.

The Keystone delegations will convene Monday to determine their detailed procedure on the floor. In his last conference with newspaper men before leaving for Kansas City the canny leader of the Pennsylvania forces parried leading questions with skill and almost humorous caution.

for the result can be announced, there will be a stampede toward him and it will be all over. Well leave Kansas City a week from tonight."

"How about Coolidge?" he was asked.

"He's out of it. He's made that plain."

"I doubt if it isn't necessary. I think the fact that most of the members of his Cabinet will be here favoring Hoover's nomination will be sufficient evidence of the President's position."

Sen. George of Utah, who is to be chairman of the platform committee, was also present when Moes was talking things over with Coolidge. Later he said that nothing of significance had been decided.

Sen. Coolidge is to be drawn out on the problem of the platform declaration on farm relief, which is expected to furnish one of the fighting issues in the convention. It consists of one of the largest delegations of the eight against Hoover, but the opposition itself is not together on the question.

ON FARM RELIEF

The Lowden-Watson group is for the McNary-Haugen farm bill, which President Coolidge vetoed; Curtis stood by the President on the Senate vote to override the veto although he had originally supported the bill.

In addition to Emerson and Mrs. McCormick, the membership of the anti-Hoover committee comprises Henry W. Marshall, Indiana; Senator James Watson,

Newman of Missouri, representing Senator Curtis, and William H. Miller of Ohio, who was one of the Willis workers. A sixth member to represent Senator Coolidge was not named.

The aims of the committee are set forth by Emerson in the following statement:

"Those interested in this movement for State and national office, and party workers in Midwestern States, whose chief concern is Republican success in November.

MOST POPULAR SUPPORT

"We submit that no man should be nominated for President who is popular and record will not include additional strength to national, State and local tickets.

"The standard-bearers must be one who will arouse party enthusiasm and attract the public."

"There is a number of candidates before this convention who eminently qualify in this respect, but we are convinced that Herbert Hoover is not one of them. In the final analysis, however, the nomination would endanger Republican success. Party workers have slight confidence in his Republicanism, and our people generally feel that he is not in sympathy with their interests."

"Without at this time recommending any particular candidate, those upon whose shoulders will fall the responsibility of carrying the Eastern States in November insist most emphatically that the nomination of Mr. Hoover would be a mistake."

Appealing for party harmony, James W. Good, campaign manager for Hoover, said yesterday: "Good Republicans in this house will not say or do anything that will impair the party's chances of victory in November."

"This is the campaign within the party," he said. "And we have struck no blows below the belt."

NOTES OF NOMINATION

I am not deeply concerned about three more demonstrations of the defeated. The real problem of the Republican voters has been expressed through a majority of the National Committee and through a majority of the delegates.

The candidates of the opposition from now on down will continue its effort to stop Hoover. In my judgment this battle for a purely negative result will last as utterly here as it has failed during the time this defeatist campaign has been carried on.

The voters at large of the country wherever they have been given an opportunity to vote have indicated emphatically their preference for Secretary Hoover and I believe him to be at this moment a favorite candidate."

Mr. Good said that not counting any of the seventy-nine votes from Pennsylvania the Hoover delegate strength was now "over 800" with 545 needed for nomination.

FARM RELIEF PLANK HEWN FOR G.O.P. CONVENTION

CHICAGO, June 7. (P)—A farm-relief plank, rough hewn, was fashioned by directors of the American Farm Bureau Federation here today. Tomorrow it will be shaped up for presentation to the Republican National Convention in Kansas City next week. The directors hope that it, or one similar, will be nailed into the party platform.

Directors accepted the report of E. O'Neal of Montgomery, Ala., chairman of the legislation committee, as the basis of their farm-relief declaration. O'Neal's report largely is given over to that question and the operation of Muscle Shoals.

While the farm bureau directors declared that a friend to agriculture will be acceptable, William Hurlin of Columbia, Mo., chairman of the corn-belt committee, declared Frank O. Lowden and Vice-President Charles O. Dawes are the only Republican candidates he will approve.

BURTON TO SEEK SEAT IN SENATE

**Ohio Representative Opposed

Party workers have slight confidence in his Republicanism, and our people generally feel that he is not in sympathy with their interests."

ON DEBT COMMISSION

In 1929 he was appointed by President Harding as a member of the debt-refunding commission which arranged terms for repayment of the debts owed this country by its European Allies. He is a member of the Inter-American Monetary Commission.

He has been honored several times by appointments to diplomatic missions abroad and has been particularly prominent in international negotiations for promotion of peace. He was chairman of the American delegation to the Arms Control Conference in Geneva in 1935.

SEKS SHORT TERM

Burton is a candidate for the short term to succeed Senator Willis who died suddenly last March, at the height of his favorite son fight.

Secretary Hoover is chosen.

President and Burton goes to the Senate, he will be expected immediately to take rank as an administrative spokesman in the upper house.

Opposition. The two supplement one another in the North where election campaign in Ohio where Burton has tremendous popularity outside of the support that would come to Hoover.

Over a period of thirty years' service he has been a member of the Senate and has been elected to the Senate in 1938. He returned to the branch of Congress in 1920 and has remained there since. He is approaching 77 years of age, but is active and in excellent health.

He is among his colleagues as one of the hardest workers on Capitol Hill.

As one of his opponents for the Senatorial nomination, Burton will be the favorite to succeed him.

He is a member of the Senate Foreign Relations Committee.

He has been honored several times by appointments to diplomatic missions abroad and has been particularly prominent in international negotiations for promotion of peace. He was chairman of the American delegation to the Arms Control Conference in Geneva in 1935.

CHURCH PARLEY DELAY FORECAST

Mexican Prelate in Rome
Discusses Peace Move
Hierarchy's Plan for Truce
Considered by Vatican

Wire to Bishop De la Mora
Predicts Settlement

ROME, June 7. (Exclusive)—Developments in negotiation of a peace between the church and state in Mexico probably will be postponed three or four weeks, Archbishop Leopoldo Ruiz of Michoacan, said today. He is here to confer with Pope Pius concerning the proposed truce.

Cardinal Gaspari, papal secretary of state, now is considering the plan drawn up by the Mexican hierarchy and taken to the Vatican by Archbishop De la Mora. It has been agreed that when he keeps the archbishop for two hours in private audience.

TODAY THE Mexican ecclesiastic administration is probable, but he stressed the basic principle that the Catholic Church should be free from persecutions and from the application of anti-religious law.

The Mexican government does not wish to negotiate on the basis that the church be as free as it is in other countries, his fellow-bishops will withdraw from the negotiations.

RIGHT TO TEACH

"And things will go on as they are," he added. "Small modifications will be made, but we seek the right to teach our children. The Mexican state says we may teach them in our churches, but everybody knows that we would undertake that if we had to have the task to instruct what secular schools taught during the day. Besides we would only be able to instruct them during play hours or on feast days, and that is entirely unacceptable."

"Proposed foreign priests we do not need them in all dioceses. In mine there is none. In Yucatan, Tabasco, Vera Cruz and Monterrey, only 50 per cent of the people are native clerics. This is the reason we need foreigners there. Mexico City needs foreign priests for instruction and for the foreign colonies, like the Spaniards, Italians and Portuguese. We are most grateful to the Spanish bishops for their offer to send a place for 200 Mexican seminarians who now are studying in Spain."

OPIMISM CONTINUES

Church circles remain optimistic that a concordat will be arranged. It is unknown whether the Vatican's proposals will be worked out by the congregation for ecclesiastical affairs or a special commission of the secret college. The final draft will be carefully revised by the Pope, who is the master of the matter personally.

One of the expected modifications of the hierarchy's suggestions is expected to be a proposal that all Mexican bishops in the future will be natives and that the church nominations must be approved by the government, as is the case now in Argentina.

EARLY SETTLEMENT FORETOLD BY MESSAGE

(Copyright 1931, Press Publishing Company, MEXICO CITY, June 7.—A telegram received here today from a high Mexican prelate of the Catholic Church now in Rome and transmitted for the information of Bishop Alfonso De la Mora, said that the conflict between church and state will shortly be settled satisfactorily.

Bishop De la Mora is hiding from the authorities and is reported to be out of town. He could not be reached.

Catholics generally, even though ordinarily well informed about developments, prefer to have little information about the affair, afoot to bring church and state together.

El Sol, an afternoon newspaper, broke the silence on the situation today with a dispatch from Rome. This is the first news given. Mexico City, the morning newspapers suppressed dispatches dealing with the visit to Rome of Archbishop Leopoldo Ruiz y Flores of Michoacan, acting head of the Catholic hierarchy in Mexico.

Except for President Calles, government officials are without information and the President declines to make any statement.

Ambassador Morrow's unofficial mediation in the church-state conflict is said to have become a moving force behind the present negotiations. There is nothing but commendation for his interest.

PRISON RIOT SEXTET GET DEATH DATE

Folsom Outbreak Heads
to Pay Gallows Penalty at
Scene of Crime

SACRAMENTO, June 7. (AP)—Folsom's Thanksgiving Day riot leaders today were sentenced to death on the gallows, with their execution dates all set for Friday, August 17. The death penalty was meted out for the killing of George Baker, a convict trusty, during the uprising. Judge Glenn, in passing sentence, provided that they be hanged in the prison where the killing occurred.

The men are Anthony Brown, ringmaster; Roy E. Stokes, James H. Green, George Crooks, Walter E. Burke and Albert M. Stewart. All gave notice of appeals to the Supreme Court, Stewart acting as his own attorney.

MRS. KAHN TO SEEK RETURN TO CONGRESS

SAN FRANCISCO, June 7. (Exclusive)—Florence Prag Kahn, California's Fourth District incumbent in the House of Representatives, today filed her declaration of candidacy for re-election.

THAW BALKA BY BARRIER

He Remains on Board Ship While Pleas of Friend to English Officials Fall on Deaf Ears

LONDON, June 7. (AP)—Harry K. Thaw's efforts to enter England appear quite vain tonight. He remains aboard the steamship Aquitania at Southampton, while his friend, E. M. Pendleton, who had spent many hours in London working in his behalf, admits that his good offices have been fruitless yet.

This extreme optimism, expressed aboard ship in the afternoon, is not echoed by Pendleton, who is of the opinion that Thaw and he will proceed to Cherbourg Saturday morning. They saw it has French visas and do not anticipate any difficulties in entering France.

Thaw was refused admittance to England by the Home Secretary under the alien restriction law of 1920 as an undesirable.

IMPASSABLE BARRIER

"There seems to be absolutely no way to break through this thing," Pendleton told the Associated Press correspondent. "I visited the American Embassy, but the staff there do nothing except on Washington's instructions. I telephoned Thaw twice this afternoon, and he is very optimistic, insisting that he be allowed to land. But I hardly think we can."

"I suggested that he wire Washington about it, but I do not know whether he did."

Mr. Pendleton voiced the vague hope that "maybe something will come through from Washington yet."

No explanation was given for the American's refusal to permit an American citizen, so far as Pendleton knows; he remarked: "The Home Office just said you can't come in."

THAW OPTIMISTIC

Aboard the liner Thaw spent a cheerful day, he apparently accepts the situation, which he insists will not change.

The steamship company has the responsibility of making certain that their American passenger does not land and was assigned an office to attend to his needs and no remittance at this prosecution, and when the guardian fell into step on a stroll, offered him a cigar.

Thaw takes his meals in his own stateroom, which is free of the ship. At first he was greatly disturbed at being refused entry, saying he spent a bad night, waking frequently because of worry.

WIFE SUES DRAMATIC 'MAWRUSS'

Angeleno Wife Charges
Actor With Idleness and
Women Consorts

CHICAGO, June 7. (Exclusive)

Alexander Carr, whose portrayal of "Mawrus Perlmutter" in the play, "Potash and Perlmutter," made him a familiar stage figure to thousands of theatergoers, was made defendant today in a divorce action filed in Circuit Court by Mrs. Helen Green, his former wife. Carr married in Los Angeles in 1924.

Both Carr and his wife have twice before been divorced. Mrs. Carr, who asks support for herself and their daughter, Beverly, 16 years of age, charges that she was never able to collect separate maintenance of \$100 per month granted her by a New York court.

"No court can make me pay you unless I am sued," Mrs. Carr declares. Carr told his lawyer, Thomas J. Lynn, granted an application of Attorney Benjamin E. Hellich restraining Carr from leaving the jurisdiction of the court.

Both Carr and his wife have twice before been divorced. Mrs. Carr, who asks support for herself and their daughter, Beverly, 16 years of age, charges that she was never able to collect separate maintenance of \$100 per month granted her by a New York court.

"No court can make me pay you unless I am sued," Mrs. Carr declares. Carr told his lawyer, Thomas J. Lynn, granted an application of Attorney Benjamin E. Hellich restraining Carr from leaving the jurisdiction of the court.

Mrs. Carr is the former wife of Dr. Martin Blank, and before her union with Dr. Blank was the wife of H. G. Green of Chicago. Carr was divorced by Mrs. Carr in 1919 and from Mrs. Helen Cunningham Carr in January, 1922.

ALL NATION GETS MORE AIR-MINDED

Mail Carried by Planes
During May Makes Gain
Over April's Record

WASHINGTON, June 7. (AP)—Air mail carried over the nineteen routes throughout the country during May showed an increase of 28,256 pounds over the previous month's figures.

There was a total of 199,284 pounds of mail carried over the routes during May, 1928, the Post Office Department said yesterday, while for April the total in pounds was 171,028. The figures for the routes, together with the weight in pounds of mail carried for May, follow:

Boston-New York, 3291; Chicago-St. Louis, 3268; Chicago-Kansas City-Dallas, 13,448; Salt Lake City-Los Angeles, 21,747; Salt Lake City-Detroit, 7,471; Detroit-Cleveland, 144; Detroit-Chicago, 153; Detroit-Los Angeles, 811; Chicago-Minneapolis, 4,137; Cleveland-Pittsburgh, 2,550; Cheyenne-Pueblo, 3702; New York-Chicago, 53,012; Chicago-San Francisco, 1,000; New York-Albany, 1,566; Buffalo-Cleveland, 127; Dallas-Galveston, 1980; Dallas-San Antonio, 2,689; Atlanta-New Orleans, 3,143; Chicago-Cincinnati, 2,575.

UTILITIES HEAD DEFENDS RIGHTS

Portland Magnate Answers Propaganda Charges

Declares Companies Entitled Present Their Case

Misstatement Rebuttal Defined as Duty

ATLANTIC CITY, June 7. (P)—The right of a utility to place its story before the public was upheld today at the convention of the National Electric Light Association by Franklin T. Griffith, president of the Portland (Or.) Electric Power Company.

Discussing recent charges that the industry had been spending large sums to create public approval of private ownership, he said:

"We do not object to the dissemination of views differing from ours, but we most strenuously do object when such different views are bolstered and supported by plain misstatements of fact. I insist that when we challenge misstatements of fact made by those who would plunge the nation, the States and the municipalities into the dark pool of political operation, we are doing that which not only is our right, but our duty as citizens as well as representatives of the industry."

Douglas W. Maier, assistant dean of the graduate school of business

BONDS RESCUED FROM SAD FATE

Valuable Securities Saved From Waste Paper Plant In Nick of Time

NEW LONDON (Conn.), June 7. (P)—A package of negotiable bonds valued at \$105,000 missing from the New York office of the First National Bond Corporation since last Thursday, was found in a hole of waste paper at a local paper box plant today.

The bonds had been sent to the corporation by the Union Trust Company of Cleveland, by registered mail.

When one of the bond company officials arrived at the plant here that received the waste paper today he was told that six of the twenty-two bales received had already been ground into pulp. An examination of the other sixteen bales was started and before the search had gone very far the envelope containing the bonds was found.

ADMINISTRATION, Harvard University, said that public utilities, in common with industry generally, have been failing in the financial support given to aid development of research and instruction by business schools. Advice concerning the expenditure of money provided for a course in public utility management, he said, never has been given by those contributing to this support.

WILBUR SPEAKS AT ANNAPOLIS

Naval Policy Change Cited in Graduation Talk

High Level of Efficiency for Equipment Set Forth

Class of 171 One of Smallest at Academy in Years

ANNAPOLIS (Md.) June 7. (P)—The American government has changed its attitude toward navy preparedness in recent years and believes in the maintenance of a permanent force of officers and efficient equipment. Secretary of the Navy, Frank B. Kellogg, told the 1928 graduating class at the United States Naval Academy.

Secretary Wilbur said that when he came into contact with the Navy in 1924, the policy of the government was to permit the deterioration in equipment and personnel, except during the time of war. But today the policy is to maintain its ships in a high state of efficiency to make continuous effort to eradicate any weakness that might be discovered.

"It is a matter upon which you can be congratulated that you enter upon your service as officers in the Navy at a time when the policy of constant improvements and improvements to naval ships has become the fixed policy of the government," Secretary Wilbur said.

MODERNIZING SHIPS

He pointed out that the undertaking of the modernization of thirteen of the nation's eighteen capital ships related under the Washington Conference "presents the most concrete and definite, if not the very first, evidence of the intention of this nation to maintain its capital ships at a time of increasing and effective service in war with the most modern navies of the world."

Stressing the point, Secretary Wilbur said that during the four years of the 171 graduates midshipmen have been in the academy Congress has appropriated \$1,500,000 for the needs of the Navy, including the reconstruction of battleships with heavier protective decks, new forms of aerial warfare, and torpedo boats, protective hulls on the capital ships.

He reviewed the progress made in the Navy through experimentation and the addition of aircraft carriers, new types of submarines, and said that the government "will not only place in your hands the operation of the expensive and complicated machinery of national defense, but it will afford you opportunity to contribute your whole service to better your mental and moral and physical equipment."

EVIDENCE OF FAITH

"If you are true to our tradition, if you are diligent in your work, if you are faithful to the flag and to the institution and the nation it symbolizes, you will have justified the confidence that is in you as evidenced by the diploma and commission I am about to bestow upon you in behalf thereof."

The class of 171 is one of the smallest graduated in recent years from the Naval Academy. Four others will receive diplomas after completing required work on a cruise. Of those graduated today 150 are commissioned line officers in the Navy, 10 in the Marine Corps, and two as members of the supply corps of the Navy. Physical ailments forced the others to resign immediately after their graduation. All the class will return after a month's leave to take an advanced course of six weeks here.

Amazons Rout State Officers

GOLCONDA (Nev.) June 7. (Excluse)—Driven by two angry women from a ranch six miles east of Golconda, deputies of the State Engineer and Elko county peace officers have asked co-operation of the State police in enforcement of the water law. According to complaints made to Atty.-Gen. Diskin by Archie Miller, deputy State engineer, the women, who were separated from the ranch by Mrs. Glen Hibbs and her sister, Miss Ivy Hibbs.

The women, armed with rifles, are said to have forcibly resisted distribution of water to their property from the reservoirs kept by the officers. The Attorney-General has filed criminal contempt of court charges against the women, but hopes are expressed by officials that the matter can be compromised.

Students Face Arson Charges

OIVET (Mich.) June 7. (P)—Two students are under arrest today and officials are seeking half a dozen others named in warrants issued in connection with a series of fires in the Kappa Sigma Alpha fraternity house at Olivet College.

Donald Smith, 21 years of age, of the fraternity, and Arnold Dulker, 22, a member, were arrested following an investigation of several weeks by the State Fire Marshal's office.

The fraternity is reported deeply in debt and it is believed the youths fraudulently obtained insurance money for replenishing fraternity funds.

ENGLAND MAKES MOVE TO CREATE INDIA NAVY

LONDON, June 7. (P)—Announcement was made today that Rear-Admiral Humphrey Thomas Walwyn had been appointed flag officer commanding and a director of the Royal Indian Marine. This is the first step looking toward reconstruction of the Indian marine as a combatant force with a view to India ultimately undertaking her own naval defense.

**EMBASSY BUYS
PARIS BUILDING**
*United States Offices in
France Augmented*
*New Chancery Now Used
as Artist Club*
*Edifice Supplements Herrick
Gift to Nation*

Copyright, 1928, by the New York Times
PARIS, June 7. (Exclusive)—The
United States, which has a con-
tract already today, will purchase the
building now occupied by the
Parisian Club, known as the Union
Artistique, for the use of its
embassy here.

According to the terms of the
agreement, the United States will
pay 31,000,000 francs for the build-
ing and grounds, including a garden
froniting on the beautiful park be-
tween the Avenue Champs Elysees
and the Avenue Gabriel. The plot
is on the Rue Boissay Dangalis at an
angle with the Place de la Concorde,
and will provide the embassy with
one of the most elegant
settings in Paris.

WELL QUARTERED

It is understood that the United
States intends to install in the
quarters of this famous artistic club
all the offices and bureaus of its
chancery, which now occupies
offices in rented rooms in the Rue
d'Ulm, near the Place D'Iena.
Thus the United States Embassy,
after many years without property
in Paris, now acquires a second fine
building after Ambassador Herrick's
purchase and gift to the government
of a sumptuous ambassa-

PRIVATE HOTEL

Accommodation set up for the new
embassy which will be used
for the new chancery is a fine ex-
ample of the private hotel covet-
ed for residential purposes since
the days of the French Revolution.
It will, no doubt, be entirely ren-
ovated and adapted to the Embassy's
uses, and will provide much-needed
space for the increasingly busy dip-
lomatic corps.

**PIONEER OF COMSTOCK
LODE DAYS SUCCUMBS**

VIRGINIA CITY (Nev.) June 7.
(Exclusive)—Death summoned one
of the oldest pioneers of the West
recently, when Fernando Lander
died at 94 years. He was among the first
residents of Virginia City at the
zenith of the Comstock Lode silver
boom, when this city was the largest
west of St. Louis, with the lone
exception of San Francisco.

**RIB-STITCH
SUITS AT \$3.95**

We have specially purchased
and plain colored suits in sizes

FRIDAY MORNING.

POINCARE MAPS FRENCH FUTURE

Final Franc Stabilization Forecast in Talk

Premier, However, Neglects to Predict Date

Deputies Throw in Tumult After Address

PARIS. June 7. (P)—Premier Poincare told the Chamber of Deputies today what is necessary to keep the franc stabilized, once the new rate legally is established. He carefully avoided, however, indicating the date when he purposes to perform the operation.

Poincare said the Premier must continue to spend less than she receives, produce more than she consumes, export more than she imports, else what already has been done to prepare for stabilization will go for naught.

TREATISE ON THRIFT

The ministerial declaration was more a sort of dissertation on thrift than a decision of policy, although the Premier did talk of stability, which might come "soon."

The document was received rather coolly by the radicals and Socialists, who were critical of the other groups. M. Poincare was accorded enthusiastic applause by the moderates and Conservatives when he had concluded.

Economy in administration, supervision of expenditures, attention to trade and production were among the things enumerated by the Premier as necessary to the success of the financial reconstruction of the country. He repeated the "solemn warning uttered by the government that one more imprudence or one more false step would be sufficient to plunge the country again over a precipice from which no one could rescue it.

After Poincare's speech the new Chamber took up noise-making where the old Chamber left off, and the session had to be suspended. A tumult of shouting came when a Communist Deputy demanded that the two Alsatian autostomists, elected while in prison for plotting against the security of the nation, be released and given the seats in the legislature. The reinstatement of two Communist Deputies, who have been in jail for some time, also was demanded.

KELLOGG TO ADDRESS CHURCHMEN IN EAST

WASHINGTON. June 7. (P)—Secretary Kellogg will go to New York Monday to address the Dutch Reformed Church at the Pennsylvania Hotel. He will fill an engagement President Coolidge is unable to keep.

HALIBUT SUPPLY NEAR DEPLETION

Joint Commission Urges Rehabilitation

Reports Industry Facing Destruction

Closed Areas and Reduced Catch Advised

WASHINGTON, June 7. (P)—De-

struction of the great halibut fishing industry in the Pacific Ocean which produces 60 per cent of the world's annual catch, is forecast today in a report presented by the International Fisheries Commission representing Canada and the United States to Secretary Kellogg.

"The majority is inspired by a wish to gain or maintain social recognition or to enjoy athletics and friendship.

"Yet in this they are not, as a whole, guilty, for the undergraduate of a decade ago. The divergence lies in the increased difficulty which the faculty finds in compelling the undergraduate to make the most of his opportunities.

"At the end of the first two years there should be a differentiation by the college between the men who elect honors and those who prefer

the yield of Pacific waters twenty

years ago.

The annual world's catch of halibut

is 90,000,000 pounds, the report says,

while the Pacific fishery yields ap-

proximately 50,000,000 pounds.

CATCH DECREASES

Decreasing catches, despite use of

larger quantities of gear, disappear-

ing three months out of the year,

the commission declared.

The men pulled as fast as they could.

"During the last ten years, the

fishermen have been compelled to

work through the door and run into

the yard they were fired upon.

Mrs. Browning was killed and all the others wounded.

SERIOUS CONDITION

Operating under the 1924 treaty

between Canada and the United

States, which prohibits halibut fish-

ing in large nets and drags on

the supply of undressed fish ex-

ports, the commission found in a

three-year study along 1800 miles

of Pacific coastline and in the Ber-

ming Strait.

The present annual catch, al-

though estimated to be worth

\$7,000,000, is only about 40 per cent

NEW DEAL ASKED AT YALE

Student Council Would Separate Scholars from Those Socially or Athletically Ambitious

NEW HAVEN (Ct.) June 7. (Exclusive)—Radical changes in the Yale system of studies were urged in a report presented by the Yale student council which declares that most students come to college not to study, primarily, but for social or athletic recognition. The council has worked three months in preparing its suggestions.

"A scrutiny of the motives which direct a student to enter college," the report, "conclusively proves that comparatively few are moved by a desire to attain a knowledge of something." They also should be granted by the university the attainment of an education.

"Yet in this they are not, as a whole, guilty, for the undergraduate of a decade ago. The divergence lies in the increased difficulty which the faculty finds in compelling the undergraduate to make the most of his opportunities.

"At the end of the first two years there should be a differentiation by the college between the men who elect honors and those who prefer

the yield of Pacific waters twenty

years ago.

The annual world's catch of halibut

is 90,000,000 pounds, the report says,

while the Pacific fishery yields ap-

proximately 50,000,000 pounds.

PROGRAM BROADCAST FROM PLANE OVER BAY

SAN FRANCISCO. June 7. (P)—

The Pacific Highway Association sponsored by KTRI, the flying broadcast, was made over San Francisco and the bay region. Using the letters KTRI, the flying broadcast was operated on 204 meters by Maj. Livingston G. Irving. The plane carried F. Wellington Morse, Fred S. McWhirter and Fred Gordon directed the program.

HOME BURNING SLAYERS GUILTY

Nine Kentucky Men Facing Life Imprisonment

Jurist Among Murderers of Aged Woman

House Fired and Bolted from Outside

SHERPHERDVILLE (Ky.) June 7. (P)—Tried and convicted jointly, nine men, one of them a magistrate, today faced life imprisonment for the murder of Mrs. Kate Brown, an aged woman whom they slew, the State contended, because she furnished prohibition agents a raid for moonshine still which they were charged with operating.

Those convicted were Magistrate John Bolton, Frank Kinder, James Harris, Elmer and Clarence Greenberg, Frank Leslie, Selby and Goldie in Hedges.

They were accused of setting fire to the home of Mrs. Browning after bolting all the doors from the outside, while the family was asleep.

With the family thus confined, they broke through the door and ran into the yard where they were fired upon.

Mrs. Browning was killed and all the others wounded.

JOHNNY DOOLEY DIES

YONKERS (N. Y.) June 7. (P)—Johnny Dooley, dancin comedian, who was until recently Earl Carroll's "Vanities," died today in the Yonkers Homeopathic Hospital following an operation on May 26 for intestinal trouble. He was 35 years of age.

EDWARD J. NEIL

Associated Press Writer

NEW YORK. June 7. (P)—A shadowed Mike McGee, the ancient

and rather dim-witted boxer who scared many heavyweight fighters less than a year ago,

battled powerful Armand Emanuel, rather less weightless than a year ago,

but Emanuel, the younger who had beaten him in his first round for a count

and Mike was in there,

thereafter, fighting his way to victory.

Mike, who had won the title by knocking out Emanuel in the 10th round, had been knocked down and dislodged for the last time.

Mike didn't beat the clever

younger who had

knocked him down and

knocked him down again,

but Emanuel had

L. A. High Golfers Win Title

HAWES NAMED AS GOLF HEAD

Officials Are Selected for \$10,000 Tourney

Brilliant Committee Named to Take Charge

Glenelde Linksmen Lose by 3-to-2 Tally

(Continued From Eleventh Page) six representative golf enthusiasts, who will form the committee in charge of the event.

President Hawes will be chairman of the committee and will represent the junior chamber along with Gregg Lifer. Brilliant, his past president, will be in the Southland's golfing fraternity, the family's name is also carried on by Mrs. Lifur, who holds the California State women's championship.

The Southern California Golf Association will be represented on the committee by its president, Everett H. Seaver, and Herman Politz, who needs no introduction.

Last, but not least, the Professional Golfers' Association of Southern California will have two well-known spokesman in Willie Hunter and J. A. Patterson.

The junior chamber is anxious to attract as many eastern stars to the Pacific Coast as possible, as well as to Southern California during the months of December and January. To further that end and the chamber plans to communicate with similar bodies in Washington, Oregon, California, Texas and Arizona to make arrangements to attract eastern envoys.

A number of advance tournaments will be held in Southern California this year previous to the \$10,000 open. Long Beach is preparing to hold its annual \$2500 play at the original Country Club. The tournament was a brilliant success last year, and an even finer event is planned for this year.

L. A. HIGH CAPTURES SOUTHLAND CROWN

Coch Ralph Noble's L. A. High boys' team won the Southern California individual championship at the El Caballero Country Club yesterday afternoon by defeating Glendale, 3 to 2, in the last eighteen holes of a thirty-six-hole final.

The Romans, with one of the greatest aggregations of prep golfers in the country, went through an undefeated season led by Capt. Winston Fuller. Playing seven regular team matches, the Pioneers won five by shutouts, one by a single hole, and lost two to Glendale.

Glendale, with a small fast-fielding team and specializes in getting out of close holes. They are a snappy bunch, too, and never waste a second, and the next moment was seated right in the general direction of the Californian's chin. When he did so Armand became careful, and Mike easily slipped him with lets to the head and body.

Almost in every round, however, as the aged Celt piled up an early lead, weariness took its toll toward the close. Mike's legs would tremble after about two hours of fighting. He would be obliged to retreat to the ropes to cover his head and duck the storm of punches Emanuel piled toward the chin.

Mike didn't wait long. Impetuous youth drove into Mike in the very first round, and the two fought for a second, and the next moment was seated right in the general direction of the Californian's chin.

Armand, with a smile, signed the bill raising lower-grade customs service.

Separate from its provisions, however, Emanuel had agreed to a bill increasing immigrant inspectors' pay in the Immigration Service. Both are effective July 1, and carry an average rise of probably \$200 a month.

Immigrant inspectors' entrance pay of \$1660 is advanced to \$1600 with a maximum of \$3000. Customs inspectors' increase is identical while customs guards now will start at \$1650 instead of \$1600, and rise to \$3400. Various porters and packers who began at \$1320 will start at \$1680, and carry a gain of \$200, with a limit of \$2100.

FILMS OF SOUTHERN CROSS ON LINE

CROSS ROAD ON LINER

First films of the arrival of the picture Southern Cross at Hawaii are due this morning on the Lassie liner City of Los Angeles, and some of the film news representatives will take speed boats to meet the liner at sea and transfer the films for quick distribution.

The liner is due at the breakwater at 8:30 a.m. with 283 passengers, including several score teachers coming to the mainland for the summer vacation. The liner also has several thousand tons of sugar, coffee, canned pineapple for local markets and transhipment, and sixty-seven bags of first-class mail.

C. E. Robertson, assistant manager of the marine department of the Standard Oil Company of California, is returning from a vacation in the islands.

A New and Better Gasoline IS HERE it forms a DRY gas

or

Speed Stars
to Clash at
Colton Sunday

Dry gas is a completely vaporized mixture of gasoline and air with no liquid globules. It is a perfect motor fuel. Dry gas equalizes cylinder distribution and gives maximum acceleration without flooding.

The new and better Texaco Gasoline is available along the highways everywhere. Motorists who have used it are enthusiastic. Twenty-five hundred new Texaco Stations and dealers have been acquired.

The new and better Texaco forms a dry gas—a smooth-burning, even textured mixture of gasoline vapor and air. It has a lower boiling point, balanced distillation range and lower end point. The results are as remarkable as its technical qualities.

Better, Smoother Power ... The dry gas formed by the new and better Texaco burns smoothly and completely in the cylinders.

Better starts and faster pick-up ... The low boiling point gives snap and pep. The new and better Texaco ignites instantly and delivers its power under all conditions.

Better mileage, greater economy ... The balanced distillation range insures maximum engine results with the lowest gasoline consumption at every engine speed.

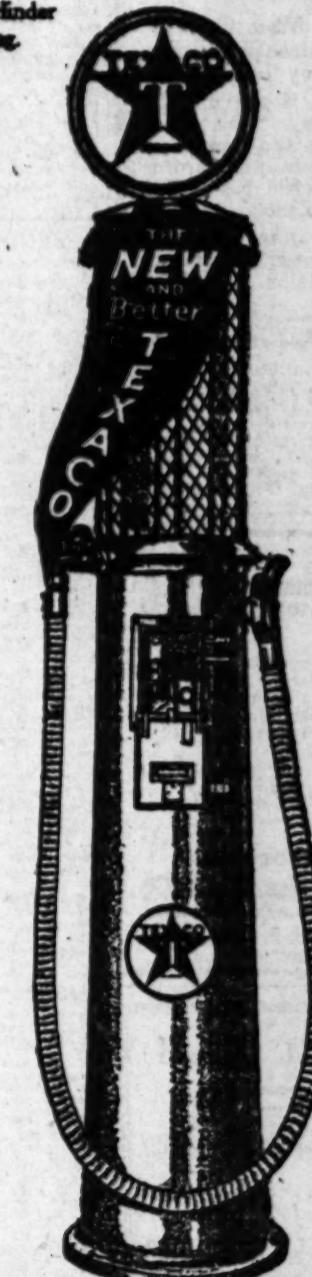

A New Conception of Uniformity ... Every gallon of the new and better Texaco is the same uniform high quality everywhere.

The Texaco Red Star with the Green T marks the place where you can get this new and better gasoline—and the clean, clear, golden, full-bodied Texaco Motor Oil—a perfect combination for better motoring.

News of Spring Street

F. H. Neuerburg, manager of the Commerz Und Privat Bank, A. G., Berlin, and Konrad von Ilberg, United States representative of the German bank, left this morning yesterday for San Francisco after a stay of nearly a week. The bankers made a survey of local conditions and studied the motion-picture industry. They worked in conjunction with the Los Angeles First National Trust and Savings Bank, having met Henry M. Robinson, president, while he was in Germany on the Duesen commission.

Appointed to Board
George Zeback of the business development department of the Hollywood Security Bank has been appointed to the board of governors of the Los Angeles chapter of the American Institute of Banking. A recent amendment to the by-laws provided for additional members.

Leaves for East
Alex H. Andrew, assistant vice-president of the Security Trust and Savings Bank, left last evening for New York, Boston and other points. He is to be gone about a month and will visit a number of the Security's correspondent banks.

Exchange Club Dines
Louis M. Corbell, assistant pastor of the Preston School of Industry at Ione, will address the members of the Los Angeles Exchange Club tonight, with a talk on musical entertainment. It will be furnished by members of the Los Angeles First National Trust and Savings Bank.

Payes Regular
Directors of Associated Oil Company, subsidiary of Tidewater Associated Oil Company, declared yesterday regular quarterly dividends of \$1.00 per share of the company, payable the 30th inst. to stock of record the 5th inst.

DRIFT OF STOCK VALUES LOWER

(Continued from Sixteenth Page)

It. Pick Rubber. Mendel Brothers, National Supply, New American Edison preferred. Oil Well Supply, United States Rubber first preferred and Walworth.

CAST IRON PIPE OFF

United States Cast Iron Pipe Company and preferred each broke about 10 points. Radio dropped from 29 to 19 1/2 and rebounded to 19 1/2. American Leather preferred, American Tanning, Electric Auto Lite, Mexican Seaboard, National, Standard Pipe, Stromberg Carb, Sodner and Warner Brothers all closed 2 to 8 points lower.

Commodities were mixed. Wheat prices fell about 3 cents a bushel.

Reports of heavy rainfall in the Northwest called about 75 cents a bushel despite the bearish tone of crop reports. Coffee and sugar were slightly easier.

The Canadian dollar dropped to another new low despite the beginning of a new movement to this country. Other exchange rates held fairly steady, with sterling cables quoted around 4.85 £.¹

Prices Drop on Report of Rain in Wheat Belt

CHICAGO, June 7. (Exclusive)—A par-

mal breaking of the drought in North Dakota with rains later in the day indicating that further rains were falling in those that needed them most.

Reports in early general liquidation sales by local traders in wheat, prairie grain, 4% @ 6% from the finish of Wednesday, saw a low on the present movement, as a whole, of 10 cents a bushel below the previous session, but still above 100. Good rains were reported over the Dakotas.

Wheat in wheat had considerably more corn, and with better weather conditions, the West, the close was 1.00% @ 1.00 bushel, or 10 1/2¢, while rice rose 2¢.

Wheat failed to fully reflect the decline this side of the line and closed 1 1/2¢ higher.

Houses and local operators that have been buying sides of wheat recently were free sellers during the day and sellers of hogs were forced to protect themselves on the way down.

The hog buying against bids checked the break but held until near the close, then the buying became more active.

A summary of the Northern Membership which suggested a yield of 240,000,000 bushels less than last year's harvest, was followed by a swelling-up for the government report, due at noon, and the market was weak and closed 2 1/2@3 1/4¢ lower.

Expectations in futures, there was little limit to the demand, with sales of 80,000 bushels in all positions.

Commission houses were on selling side of corn and overnight development was of a depressing character.

July, however, was rather strong and went to 2¢ over the second session of the previous day, although the market was fair and bought September rather persistently.

Commodities sold some old grain to come here. Coughlin and others who had grain to arrive were larger and these 300,000 bushels had No. 4 yellow sold for December 15th shipment at 5¢ a bushel.

Cattle showed a heavy undercutting the day before, the day with expectations that the character of the reports would change as the result of the recent rains in the Northwest. July led the market, while the market was sharply the better weather conditions in the Northwest. Export demand at the seaboard was slow.

Live cattle declined to the lowest in about two months and closed 10¢ lower, while ribs were unchanged to 5¢ lower.

Police Capture \$50,000 Worth of Liquor in Raid on Hijackers' Cache Following Tip

RUM FORTUNE REPAYS SEARCH

Cafe Man Under Arrest as Suspected "Fence"

Active Gang Thought Broken Up by Campaign

Stock Believed Proceeds of Private Cellars

Liquors valued at approximately \$50,000 were seized by police yesterday with the announcement that they have broken up one of the most active gangs of hijackers that ever operated on the Pacific Coast. The confiscated liquor is said to have been hijacked from the private cellars of wealthy residents of Southern California, as well as from bootleggers.

The cache was located by police at 5620 South Broadway, on the second floor of a building occupied by the N. & M. Cafe. W. H. Newmann, said to be the proprietor of the cafe, is under arrest on suspicion of receiving stolen property.

Locators of the liquor cache followed the lead of W. W. Fields, who, according to police, confessed to hi-jacking Charles Hooper, owner of a repair shop at Seventeenth and Main streets of a quantity of liquor a week ago Sunday.

The first intimation of the hijacking ring was obtained by police last Monday, when they received a mysterious call to raid a room in a downtown hotel. The raid resulted in the arrest of William Logan and Mrs. Hettie Sykes, who later were identified by Hooper as two of the persons taking part in the theft of his liquor.

Two men and a woman said by detectives to have been implicated in Logan's confession were arrested shortly before midday yesterday at the City police station on charges of suspicion of robbery. They gave their names as James Huey, 42 years of age, a plumber, W. J. Munro, 43, chauffeur, and Mrs. Mary O'Connor. All three were arrested at 367 East Thirtyninth street and all said they lived in Ventura.

Lone Tree Opens Bag of Trouble

All started when Frank Castello cut down a tree.

The wood from the tree, according to Loretta Piper, now suing Castello for \$25,000 damages in Judge Bullock's court, was piled in her driveway. An onlooker drove her car to her garage and was forced to leave the machine at her curb in front of all night.

Along came a traffic officer and saw the car. The tag started an argument between Miss Piper and Castello, ending she asserts, by the latter attacking her and inflicting her several injuries.

The defendant, through his guardian, denies the accusations on the ground he was insane at the time of the asserted attack.

The hearing will continue today.

HUMANE DEPARTMENT OFFICER ACQUITTED

Russell G. Coon, special officer of the City Humane Department, yesterday was found not guilty on a charge of battery by Municipal Justice Frank G. Gandy. Coon was accused by Mrs. Bertha Clement, 18-year-old University of California co-ed, of stopping her on the pretext that she was making improper advances toward her. Several members of the board of trustees of the Humane Department, with which Coon has been connected for four years, testified in his behalf.

BANK BANDIT PALS DRAW SENTENCES

Two Taken After Killing of Asserted Companion Will Go to Prison

Alfred Reed and Albert Roth, who pleaded guilty to a charge of attempting to rob the Vernon branch of the Merchants' National Trust and Savings Bank March 26, last, yesterday received prison terms ranging from seven years to life. Sentences were imposed by Judge Edmund of Superior Court.

The men were captured through the efforts of George J. Fisher, bank guard, who killed J. J. Ratledge, an asserted accomplice of the bandit, in an exchange of pistol fire following an unsuccessful attempt to hold up the bank. Fisher then kept Reed and Roth over until they were disarmed.

Reed was sentenced to San Quentin, while Roth, a "two-time" loser, was ordered to Folsom.

MENACE IN LOAN BULK MINIMIZED

(Continued from First Page)

of Redwood City, was chosen to fill a vacancy on the council.

ANNUAL ADDRESS

The morning session was opened by the delivery of the annual address of the president of the association, Mr. E. C. Spaulding, and the vice-president of the Los Angeles First National Trust and Savings Bank. Mr. Hardacre reviewed the events of the past business year in California and emphasized the sound growth of banks in the State.

Expressing concern over the speculation in bank shares. On this point he said:

"Conditions throughout the country are slowly getting better with the possible effect on public opinion of the recent publications, the service which might result from any substantial downward fluctuations in the values of their stocks, are matters which conservative bankers are viewing with some concern."

GREAT GROWTH SEEN

In discussing the parts the banks play in the development of the State Mr. Hardacre predicted that, if the curve of growth holds true, banking resources twenty-five years hence will be about \$100,000,000 day they are about \$40,000,000 and twenty-five years ago were \$50,000,000.

The program was enlivened with a stirring address by Harry E. Todd, postmaster of San Francisco, who took as his subject, "The Birth of a Nation." Several formal reports were given by committees, including the executive, legislative, legal department, and the secretary, Frederick H. Colburn.

Todd's program will include addresses by H. G. Hotchkiss, president of the California Estate Association; Edward Elliott, vice-president Security Trust and Savings Bank, and Donald D. Conn, managing director California Vineyardists' Association.

PARK BOARD RENEWS FIGHT ON SPOONERS

The battle to keep city parks free of spooners at night continues. Yesterday the Park Board requested Supt. Shearer to take up with the Automobile Club of Southern California the matter of placing signs and to arrange for gates to mountain roads, warning lingers that the road will be closed from 8 p.m. to 6 a.m. daily.

NATIONAL DRY CHIEF ON VISIT

Commissioner Doran Says Lid Fits Tightly

Expresses Pleasure With Southland Efforts

Civil Service Hurt Force at First, He States

Prohibition enforcement throughout the United States is becoming more and more effective and conditions on the Pacific Coast are improving, according to National Prohibition Commissioner James M. Doran, who arrived here yesterday.

The men were captured through the efforts of George J. Fisher, bank guard, who killed J. J. Ratledge, an asserted accomplice of the bandit, in an exchange of pistol fire following an unsuccessful attempt to hold up the bank. Fisher then kept Reed and Roth over until they were disarmed.

Reed was sentenced to San Quentin, while Roth, a "two-time" loser, was ordered to Folsom.

ANNUAL ADDRESS

The morning session was opened by the delivery of the annual address of the president of the association, Mr. E. C. Spaulding, and the vice-president of the Los Angeles First National Trust and Savings Bank. Mr. Hardacre reviewed the events of the past business year in California and emphasized the sound growth of banks in the State.

Expressing concern over the speculation in bank shares. On this point he said:

"Conditions throughout the country are slowly getting better with the possible effect on public opinion of the recent publications, the service which might result from any substantial downward fluctuations in the values of their stocks, are matters which conservative bankers are viewing with some concern."

GREAT GROWTH SEEN

In discussing the parts the banks play in the development of the State Mr. Hardacre predicted that, if the curve of growth holds true, banking resources twenty-five years hence will be about \$100,000,000 day they are about \$40,000,000 and twenty-five years ago were \$50,000,000.

The program was enlivened with a stirring address by Harry E. Todd, postmaster of San Francisco, who took as his subject, "The Birth of a Nation." Several formal reports were given by committees, including the executive, legislative, legal department, and the secretary, Frederick H. Colburn.

Todd's program will include addresses by H. G. Hotchkiss, president of the California Estate Association; Edward Elliott, vice-president Security Trust and Savings Bank, and Donald D. Conn, managing director California Vineyardists' Association.

PARK BOARD RENEWS FIGHT ON SPOONERS

The battle to keep city parks free of spooners at night continues. Yesterday the Park Board requested Supt. Shearer to take up with the Automobile Club of Southern California the matter of placing signs and to arrange for gates to mountain roads, warning lingers that the road will be closed from 8 p.m. to 6 a.m. daily.

CAFE EXPLOSION SUSPECT TAKEN

(Continued from First Page)

Estelle Taylor, John McCormick and his wife, Colleen Moore, and other picture people of more or less prominence were present.

Investigation by officials yesterday revealed the following:

The building which housed the cafe covered the ground space included between 8642 and 8648 Sunset Boulevard. In addition to the real estate office was a gift shop, operated by Texaco, real estate and insurance offices.

Early in the evening one of the tenants noticed oil leaking through the ceiling of the one-story building and went up into the attic to investigate. He found a candle burning on a bunch of oil-soaked rags. Investigating further, he discovered that an oil-soaked rag cord led from the bottom of the first candle to a second, and so on clear across the length of the building. The man bent over to put out the second when one candle burned down it would ignite the cord to the second, thus spreading the fire the length of the building.

The tenant called city and county fire departments, who may have been present. All of the remaining candles, and a number of men were left on the premises to watch for the return of the incendiary.

Plans for the largest picnic in the history of the organization on July 4 at Echo Park were announced yesterday by the picnic committee of the Los Angeles Letter Carriers' Association. The picnic is the annual outing for the letter carriers and their friends, the proceeds going to the sick benefit fund of the organization.

One of the features of the day, according to President William Neumann, will be a chicken pie dinner.

After the meal there will be parades exercises at 2 p.m. there will be music by the Letter Carriers' Band both morning and afternoon.

Adolph Klein is band leader. There will be a program of sports, featuring events and baseball games between teams representing the San Diego and Los Angeles letter carriers.

The plans call for an all-day picnic.

However no one appeared and in the meantime the smell of escaping gas became apparent. While a search was being instituted fire broke out in the building which was extinguished with great difficulty because of the quantities of inflammable material shown about the attic. When the fire was brought under control, another search began for the leaking gas.

Lodjensky had gone below where the gas meter was installed and fired a rifle into the ceiling, causing suddenly the explosion that wrecked the building completely. It is believed that a spark from the recent fire reached the escaping gas, which eventually had its origin near the meter.

In addition to Lodjensky, those injured in the explosion were Irvin P. Strother, insurance broker; Spence Turner, Chief of the County Fire Department; Fire Captain Klingler and Fireman Charles Wilcox; Leo G. Moran, Carl Reinmiller and M. C. Carson.

SERIOUSLY INJURED

Strother received serious head injuries. Capt. Grogan a fractured leg. Klingler a broken wrist and the others less serious injuries.

Police started search for Texaco when it was learned that he had fired to injure an amount of insurance on his stock and fixtures within the past sixty days. Policies amounting to \$7000 in two companies were located by Deputy Sheriff's Freeman and Rankin yesterday.

IMPROVEMENT FOUGHT

Protests against the improvement of Avenue 56 from Media Drive to Hermosa avenue will be heard by the City Council this morning.

MINISTERS VOTE DR. DYER GUILTY

(Continued from First Page)

along with Dr. Dyer, whom he characterized as "ingrained" like a nail of some particularish self-satisfaction and acting in bad faith.

He lost confidence in Dr. Dyer, he said, when the latter had brought him Dr. Aked, former secretary to Senator James C. Scott, to see him. Dr. Aked had told him that he had not intended to keep her in the position, but was doing so because another secretary resigned. Dr. Aked cited other instances he said destroyed his confidence in his predecessor.

Testimony as to asserted false statements on finances and other matters introduced to show bad faith of Dr. Dyer, he said, was given next by a group of former members of the church who admitted they are among the twenty-three members ousted in 1924. These members were James Atwell, Mrs. W. A. Morris, Edward H. Fuller and Dr. Harry Schott.

BITTER ATTACK

Rev. E. D. Gaylord, who served as moderator of the ecclesiastical council called three years ago to consider the matter of the ousting of the twenty-three members, told of the results of his investigation. He said that the council found the members had been ousted illegally and were still members of the church, but that Dr. Dyer and his church had disregarded those findings.

Dr. Thomas B. Harper, who quit as co-pastor with Dr. Dyer last February when the most recent trouble in the church arose, then told of his trial while there and the reason for his resignation. He attacked bitterly the recently proposed boxing bout to raise funds for the church.

Other testimony was Dr. George F. Kinnecott, superintendent of the Los Angeles Congregational Church Extension Society; C. E. Spaulding, former president of that organization; Fred M. Wilcox, treasurer of the church; Dr. W. E. Miller, national conference; H. S. Laughlin, who was ousted as clerk of the church early this year, and Dr. John Gardner, moderator for the State conference.

Mr. Laughlin outlined the asserted irregular procedure by which he said Dr. Dyer introduced 114 new members into the church and with them to the board of trustees elected officers elected at the preceding annual meeting of the church and of his own.

Plans for the largest picnic in the history of the organization on July 4 at Echo Park were announced yesterday by the picnic committee of the Los Angeles Letter Carriers' Association. The picnic is the annual outing for the letter carriers and their friends, the proceeds going to the sick benefit fund of the organization.

Air Express Cuts Its Flying Time From Bay City

ROOSTERS CAN CROW AWAY

Morning Songs of One-time Barnyard Monarch Keep Privileged Status

Flying time between San Francisco and Los Angeles was cut yesterday to the remarkable minimum of 2h 28m., according to announcement of Western Air Express. Inc. Its twelve-seated passenger plane left San Francisco at 10:30 a.m. and landed at Vail Field, Los Angeles, at 12:58 p.m. The huge ship averaged 150 miles an hour for the entire distance. It is the fastest time ever made between the two cities by any passenger machine of this kind.

Among the passengers was Col. H. B. Hersey, chief of the United States Weather Bureau service in this city.

New Fountain
for Pershing
Square Urged

Proposal for a new fountain consisting of three elevations of tiered waterfalls, to replace the fountain in Pershing Square, suggested to the Park Commission yesterday by President Van Arsdall, who believes the hotel and other interests will back the plan. The cost of the park would be the bulk of the park estimated at \$24,000.

President Griffith explained the Aqua Life Company of America had suggested a new system of coloring was used by the city school board will be decided Monday morning.

Information of a policy to be adopted in acquiring needed extension of the Los Angeles city school system will be decided Monday morning.

The members of the Board of Education agreed at their meeting yesterday to the extent of the school budget may carry "Outlay" item.

Information of a policy to be adopted in acquiring needed extension of the Los Angeles city school system will be decided Monday morning.

The annual budget of the system is submitted to County Audit on the 15th inst., so the amount will be known before the date of the school year begins.

Estimates on tourist traffic and the approximate annual expenditure were prepared for former United States Senator Flint, chairman of the executive committee of the All-Year Club, by a local economic bureau.

Since its inception in 1921 the club has spent millions of dollars advertising in magazines and newspapers throughout the nation to exploit the climatic, recreational and scenic attractions of Southern California.

As a result of the organization's campaigns millions of tourists have come to this section. The present campaign for funds to be provided by prominent business men will close the 15th inst.

PAINTINGS BY EASTERN ARTISTS SHOWN HERE

The Los Angeles Museum of Art is showing over 100 paintings by Woodstock, Pa. artists, a representation of American painting up to the time of the water colors by John Ryerson and Anne Goldthwait, eastern artists, and Loren Ruck, a painter seen here for the month of June, are among the group of paintings by artists of Taos and Santa Fe.

BULLOCK'S

Vocational Teachers to Be Graduated

Fifty-three special teachers of vocational subjects will be graduated by the Division of Vocational Education at the University of California at Los Angeles tomorrow at 10 a.m. The exercises will be held in McLaughlin Hall.

Diplomas will be presented by Dr. Ernest C. Moon, director of the university. The State Board of Education will be represented by one of its members, Allen T. Archer. Howard A. Champion, principal of the Frank V. Wiggin Trade School, will make the address in the evening. His subject will be "A Decade for Vocational Teachers."

The graduating class will be represented by two of their number, D. Atkins, instructor of personal hygiene, work at the Long Beach Part-time High School, and Herman P. Thomas, instructor of machine shop practice and coordinator at the John C. Fremont High School, Los Angeles.

LIFE GUARD ASKED

The Los Angeles Harbor breakwater has become popular, with many swimmers. G. Gandy yesterday asked the City Council to station a life guard and police officer there to protect the swimmers. He also asked that steps be taken to prevent speed boats from endangering those swimming near the breakwater.

SWIMMING PROTECTED

Ward Griffith and other men yesterday asked the board to order the paving of street from Lantaff street to Belmont and Fourteenth

and Fifteenth streets.

Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example they should be religiously observed.

—Abraham Lincoln

Cobay's Bible Cest

Praise ye the Lord, I will praise the Lord with my whole heart, in the assembly of the upright, and in the congregation. Psalm cxii:1.

DOVE OF PEACE
The Irish government has accepted Secretary Kellogg's invitation to join in the abolishment of war. This is about the best news we have had yet. If the Irish stop fighting who will man the trenches in the next frolic? The war won't even have a Cork leg to stand on.

BATTERIES FOR TODAY
Now they tell us that the human body is made up of a complex group of tiny electric batteries that become freshly charged while we sleep. That's right. About the only time we can get anything charged is when we are asleep. Will the umpire kindly announce the batteries for today?

KEEPING THE PEACE
In the French Assembly the presiding officer wears a dress suit. If the members get unruly he puts on his top hat and leaves his seat. That means that the show is over. He doesn't have to wait for a motion to adjourn. If this idea prevailed in the American Congress Nick Longworth would be marching down the aisle in a silk hat every day or two.

TOO MANY LAWS
An authority on criminology declares that we are having more criminals because we have more laws. It must inevitably follow that the more laws there are the more law breakers there will be. Each new measure will produce some fresh brand of offender. Each new paragraph of traffic regulation discloses a long line of violators. The great trouble is that in the multiplicity of laws the public refuses to take its legislation very seriously. A citizen may shatter a few enactments in the day's work without being held up as a dangerous criminal. A man may go to jail and still be a hero to his wife, his wife and his bridge club. This condition may be blamed upon the promulgation of the law makers.

COURT DIGNITY
When the Supreme Court of the State of California opened its summer session in Los Angeles, the new silk gown was worn by the judges on that occasion, being an innovation in the southern part of the State. We were naturally the subjects of comment. That the silk gowns added dignity to the appearance of the bench and promoted respect for its individual members was the general reaction of bar and spectators. Nor did the official garb in any way offend the deep-seated sentiment of the West for democratic simplicity.

Democratic simplicity is an ideal we cannot afford to lose, for it is the quality that differentiates the American citizen from the European subject. But this simplicity does not have to be rough or clumsy or slovenly; it can be democratic and at the same time dignified; and in no office in the keeping of the American people is respect for constituted authority so essential as in the administration of the laws of the republic.

Dispensing justice in shirt sleeves was altogether appropriate in pioneer communities. Such rough and ready justice, moreover, was hit the hard more often than our complicated legal procedure does at the present time. Law like all other civic and social functions, is easier to handle under primitive conditions amid sparse populations. And law, like other adjuncts of civilization, to be efficiently administered, must be respectfully and appropriately clothed.

As symbolic of legal and civic dignity United States Supreme Court Judges from the beginning have worn the silken gown. New York for nearly twenty-five years adopted the same insignia. Other State Supreme Courts have followed their example. California has joined the movement.

Army and navy officers would not preserve their authority if they appeared on parade in civilian attire. The uniform commands respect. The very maintenance of our democratic simplicity in its trust form depends on dispensing justice in a dignified and formal manner. There is every good reason extant for garbing our judges in some distinguishing attire.

THE UNION STATION SITE

There is now before the City Council a request from affiliated civic organizations of eastern Los Angeles that the city "ask the three steam roads operating here to jointly prepare and present a union passenger terminal plan that will meet the requirements of Los Angeles and adjacent population." This request is induced by the Hearst Examiner. At first sight, this indorsement appears somewhat surprising because from the beginning of the union station controversy, that newspaper has fought consistently for the railroads, which have often asserted that no union station is necessary or desirable. As a matter of fact, it apparently presages a new attempt to evade the issue.

However, the indorsement makes it even though unintentionally—almost unanimous for a union station at the present site since the site in the Plaza offers the facilities of "a union passenger terminal plan that will meet the requirements of Los Angeles and adjacent population." In twelve years of discussion, all the plans for other sites have been examined thoroughly and found to have fatal defects. The roads themselves have been able to propose no alternative except the old Ticom Plan or modifications of it, involving four-miles of noisy, dangerous, street-darkening, value-destroying elevated railroads, which was submitted to the people in 1926 and overwhelmingly rejected.

But the Examiner now says: "The present depot facilities are not only inadequate, but do not in any way fit into the metropolitan picture. A great union station, properly placed, would not only be a credit but its actual value in facilitating traffic would be important."

Again this is, in fact, an indorsement of a union station in the Plaza area, the only site where a union station could be called "properly placed." It is incontrovertible that the Plaza plan is the only one that will do away with grade crossings by bringing all tracks in with crossing streets, either at grade, above grade or under grade; that it is the only one that will land incoming passengers at the beautiful Civic Center now under construction, without trailing them through back yards and industrial districts; that it is the only one that provides a station easiest of access to nine out of every eleven of Los Angeles' residents; that it is the only one that will cost \$1,000,000 less than any other plan; that it is the only plan endorsed by the Interstate Commerce Commission, the State Railroad Commission, present and past City Councils, present and past City Planning Commissions, several city Boards of Public Utilities, city Engineering and Advisory Committee, State Railroad Commission's advisory board of engineers, Central Development Association, Federation of State Societies, Downtown Business Men's Association, and more than seventy regional improvement associations representing two-thirds of Los Angeles' area; and that it is the only plan endorsed by the people themselves.

On this latter point, the indorsement of the people, the Examiner said on March 10, 1928, in the heat of the campaign that preceded popular vote on the subject: "The State Railroad Commission should not decide the union passenger terminal station until after the Los Angeles city election of April 30. On that date the people will settle it for themselves . . . Such men, of course, prefer that the issue be settled right, that is, by the people themselves."

EARNEST STUDENTS
If you want to send your boy to a college where he'll be kept out of mischief choose a barber college. The only way to learn barbershop is by practice," our barber cheerfully informed us, "and first it's the free room, where we work on bums and such, and then

JOHN D. WORKS

Another instance of the marvelous recuperative qualities of the California climate is seen in the life work of John D. Works, who has just passed away at his Los Angeles home after a long career in the West filled with public, civic and private accomplishments that made him one of our outstanding citizens.

At that time the Examiner was pre-

dicting the defeat of the Plaza plan by more than two to one. Instead, it received a substantial majority, in an election in which all the forces of the railroads were brought to bear and in which they exerted every means of pressure, legitimate and otherwise, to induce a vote in their favor. The elevated terminal plan was voted down at the same time.

The obvious intent of the Examiner,

now, as heretofore, is all of the rail-

roads, is to lay the groundwork for a "compromise" proposal providing for the location of the union station at some point as was suggested by the exploded "Dawn plan." In fact, there is good reason to believe that the present activity of the Hearst-railroad allies is preparatory to an attempt to revive the Dawn plan or a similar one calling for a union terminal in the same general area as that occupied by the Arcade Station. Permission to use the latter as a joint terminal has been specifically forbidden by the Interstate Commerce Commission.

NO ONE SHOULD BE DECEIVED BY THIS APPARENT CHANGE OF FRONT ON THE PART OF THE SPEAKERS FOR THE ENEMIES OF THE CITY'S UNION STATION PROJECT. THE RAILROADS, FACED WITH THE CERTAINTY ULTIMATELY OF BEING FORCED TO JOIN IN TERMINAL CONSTRUCTION IN THE PLAZA AREA, ARE STARTING A SMOKE SCREEN IN THE HOPE OF INVOLVING THE ISSUE IN ANOTHER "COMPROMISE SITE" CONTROVERSY.

THE ONLY QUESTION NOW AT ISSUE IN THE TERMINAL MATTER IS WHO HAS THE POWER TO ORDER THE STATION'S CONSTRUCTION, AND THAT QUESTION NOW IS IN THE WAY OF DETERMINATION BY THE COURTS.

ANYTHING THE CITY COUNCIL CAN DO TO HASTEN THAT DECISION, OR TO INDUCE THE LEVITABLE, WILL BE WELL DONE, PROVIDED IT DOES NOT SURRENDER THE GROUND DOWN IN A LONG AND COSTLY STRUGGLE. THERE IS NO POINT IN REOPENING THE CONTROVERSY AS TO THE LOCATION. ALL THE AVAILABLE SITES HAVE BEEN EXAMINED AND RE-EXAMINED, AND EVERY DISINTERESTED EXPERT HAS REPORTED NOT ONLY THAT THE PLAZA IS THE BEST SITE, BUT THAT IT IS THE ONLY ONE THAT WILL ANSWER THE REQUIREMENTS.

ANOTHER STEP

Local courts having forgiven the Julian promoters and kissed them good-bye Uncle Sam steps into the picture to see if perchance some of them have not made tricky use of the mails in sparing prospects. This machinery comes handy at times. If people may be held responsible for the statements and promises they send forth by letter the world may yet be made safer for suckers.

HIT, RUN AND SUICIDE

What it means to a motorist to bear the responsibility for having caused by his careless driving the death or serious injury of a pedestrian is illustrated by the suicide of such a driver in this city recently. When he knocked down and severely injured a man and woman he drove hastily away, the police reported, not stopping to give them aid, as the law requires, but when he learned that the police had identified him as the hit-and-run driver responsible for the dead he killed himself.

MOTORISTS WEAVING THEIR WAY RECKLESSLY THROUGH THE TRAFFIC, JOY RIDERS LIGHTLY SWEEPING DOWN THE ROADWAY WITH NO THOUGHT OF POSSIBLE FATAL CONSEQUENCES TO PEDESTRIANS, OTHER DRIVERS OR THEIR OWN PASSENGERS, MAY SMILE WHEN THEY TELL OF THEIR MANY "CLOSE SHAVES." BUT TO ONE OF THE LEAST SENSIBILITY OR FEELING OF HUMANITY IT IS A TERRIBLE THING TO HAVE INJURED OR SWEEP OUT OF EXISTENCE ANOTHER HUMAN BEING. THIS IS OBVIOUS, BUT IT IS

NOT UNGRATEFUL.

An unusual scene was being witnessed in Farmer Gile's field. Puffing like a steam engine cursing his folly in allowing himself to grow stout, an old gentleman was running for his life from an infuriated bull.

At first it seemed as if he would be caught. But with one last despairing effort he pursued the end of the field and buried himself over the gate in the mud.

For some moments he sat still,

recovering his breath. Then rising to his feet, he shook his fist at the infuriated animal.

"Ye-e-s, sir," he spluttered. "And I've been a vegetarian all my life!"

SOCIETY

BY JUANA NEAL LEVY

Among the attractive brides-elect of the season is Miss Katherine Jane Smith, daughter of Mr. and Mrs. Brainerd B. Smith of 930 Orange Grove avenue, Pasadena, whose wedding will be Russell Diller Tuesday evening at the Hotel St. Mark's. Interesting affairs will be given in honor of Miss Smith before the wedding, among them being a luncheon and bridge supper with Miss Frances Harrison, who is staying at home in Vega street, Alhambra. Forty guests will be invited. Mrs. Allan Maxfield and her daughter, Mrs. Harry Pryor, entertained with a garden party at their spacious mansion home in South Madison avenue, Pasadena. Bridge tables were arranged in the patio and were centered with great baskets filled with spring flowers, and the tables were set with white. It was revealed the wedding date, and the place of the ceremony, the First Presbyterian Church in Pasadena. Those included were Miss Dorothy Maxfield, Mrs. Frances Chapman, Kathryn Chapman, Virginia Judd, Eloise Parker, Ruth Loftus, Frances Loftus, Helen Hill, Evelyn Rose, Dorothy Bouch, Margaret Robertson, Helen H. and Mrs. Goodrich, Gladys Guild, Dorothy Haldeman, Elizabeth Wheat, Emily Herbert, Annabel Franklin, Frances Holmes, Kathryn Gude, Ruth Maxfield, John Maxfield, Alice Jacobson, West Frost and the Misses Arthur, Henry Pryor, Frank Payne, Curtis Richards, Walter Hoggson, Herbert Gray, Paul Weber, Yale Park, Shirley Twentyone, and Donald Cameron.

The guests at Miss Harrison's supper party were the Misses Katherine Smith, Dorothy Macmillan, Eloise Judd, Jean Wilcox, Evelyn Ross, Marion Robertson, Dorothy Haldeman, Kathleen Nolan, Mary Stohr, Barbara McCartney, Georgia H. H. and Mrs. Maxfield, Mr. and Mrs. Harry Price, Mr. and Mrs. Frank Payne, Mr. and Mrs. Curtis Richards, Mr. and Mrs. Fred Weber, Mr. and Mrs. Val Martin, Mr. and Mrs. Donald Cameron, Mr. and Mrs. Terrance Kiser and Eason Nobile, Field Thompson, Boyd Wehlen, John Woods, L. J. Buzby, Robert Lee,

John Hunter and Robert Green.

Tomorrow afternoon Miss Jean Wilson is planning a luncheon and bridge party at her home in Hayworth avenue, Hollywood, sixteen guests having been bidden.

Visiting Brother

Mrs. Leo Gregory McKellops of St. Louis is the house guest of her brother, Dr. Edward B. Smith and his wife at 6009 Tarzana Way.

She has been visiting in San Francisco and plans to remain with her brother for a week or ten days

sightseeing in Southern California.

She is staying here by her husband for their return home trip.

Seniors Entertained

Miss Alice R. Parsons and Miss Jeanne Danner entertained the seniors of Girls' Collegiate School at a dinner at the Women's Athletic Club, Tuesday evening, taking them afterward to the President's Room of the club.

Five seniors were bidden, and Mrs. Laurie and Miss Gartman, associate principals, also were honor guests. The graduation ceremonies will take place at the school in Glendale the 15th inst., while the annual alumnae luncheon will be on June 22.

Smart Affairs

Mrs. R. B. Dilley entertained a party of her friends with a very delightfully appointed luncheon Thursday in the Rose Room of the Sherman Park Hotel. The table was beautifully decorated with bright spring flowers in a myriad of shades. The table was in the form of a horseshoe around which the twenty guests were seated. After the luncheon bridge was played in the lounge.

Coming Home

Mr. and Mrs. Sidney King Russek, accompanied by their 7-year-old daughter, Joyce, who has been attending school in New York, are returning to their Laughlin Park home this week, after a winter in the East.

University Club Meeting

The Stanford Women's Club of Los Angeles will hold its last meeting of the current club year at the Women's University Club at Hoover street, tomorrow at 2:30 p.m. Mrs. Esther Boguslav, alumna of the University of Southern Califor-

nia, will preside.

BEAUTYADVICE

Learn how to remove powder and rouge

Employ this treatment of beauty oils to combat blackheads, enlarged pores, blemishes. Find how naturally lovely your skin is.

AGE is a challenge to beauty. Today—the woman of forty or fifty refuses to let the years conquer her loveliness. She protects her treasured complexion, first index to enduring beauty.

Only a soap of Nature's beauty oils—like olive and palm oil—will cleanse the skin thoroughly and gently at the same time. Such a soap is safe—do not harm your skin.

Each night—garnish skin—do this:

Remove all trace of rouge and powder, of dust and grime, of oil secretion and dead skin by massag-

ing the face thoroughly with a profuse lather of Palmolive Soap and warm water. Work it into the very pores until your two hands to massage away any telltale lines of age. Rinse with warm water, graduated to cold, then pat dry. Occasionally use an ice massage to "tone" your skin if you wish. Then (and then again) do this:

ready for rouge and powder. If your skin is apt to be dry, an olive oil rub before your soap massage brings grateful results.

But—never omit your regular Palmolive treatment. On sale everywhere—10c. The Palmolive-Pestle.

NEWS OF SOUTHERN COUNTIES

HEAVYWEIGHTS GUARD BORDER

Squad of Twenty-five Picked Officers on Patrol

Smugglers of All Types to be Sought by Force

High-Powered Automobiles Ordered for Squadron

SAN DIEGO. June 7.—Border territory between Oceanside and Yuma, Ariz., will be patrolled by mounted inspectors of the United States Customs Service within a month, according to Capt. Charles Freeman, who has recently created customs service. Freeman has established his headquarters in the Federal building here, having recently arrived from El Centro to take charge of the organization.

Operating under Freeman and Louis H. Schwaebe, collector of customs for this district, will be twenty-five inspectors. To be qualified for the organization, each inspector must be over 5 feet, 11 inches tall, weigh 200 pounds or more and be at least 30 years of age, Freeman said.

"Our organization will be composed of men who will have experience and who will be able to compete with smugglers," Freeman said. "All types of smugglers will be dealt with, whether they are suspected honest, amateur smugglers, or persons attempting to violate the Tariff Act by bringing in any article without payment of duty."

Efficiency with speed will be the object of the heavyweights, according to Freeman, who said the mounted inspectors are being trained for rapid movement from one section of the district to any other section that may be needed.

A fleet of high-powered automobiles is being furnished for quick transportation and will be used by the guards who are operating in border districts. The flying squads will be based in Ariz., to the sea, chiefly along more isolated sections of the border between California and Baja California, Freeman said.

Applicants for positions with the mounted guards will not be required to take civil service examinations, Freeman said. It is necessary, however, that applicants meet the weight, height, age and experience requirements.

Sudden Death Takes Two in Orange County

SANTA ANA. June 7.—W. L. Stewart, 52 years of age, Santa Ana public accountant, dropped dead at 6:30 a.m. today at his home, 214 South Broadway. Heart disease was believed responsible for his death.

The body is at the undertaking parlor of Harrell & Brown in Santa Ana, where Coroner Charles D. Brown has been called to inspect the autopsy would be performed to verify the cause of death. It is probable, he said, that no inquest would be conducted.

Stewart, who was a member of the accounting firm of Stewart & Taylor, leaves a widow.

SANTA ANA. June 7.—A. W. Jackson, 42-year-old manager of Balboa died suddenly of heart disease yesterday at his home. Coroner Charles D. Brown announced today that, after an investigation, he had decided that no inquest would be necessary.

Wrecks Truck to Save Lives

REDLANDS. June 7.—A runaway truck and trailer went amuck on the main road entering Redlands from the east this morning and was mangled so badly by the driver who guided it into a people tree and a telegraph post, turning it and the high loads of hay over, wrecking the truck, but probably saving some lives.

Two men were injured, the driver and his wife, who jumped just before the crash.

The injured are A. A. Cutler of 1251 East Fifty-ninth Place, Los Angeles, driver of the truck, and M. Harrison of the Imperial Valley, who helped. The truck was owned by J. R. Hilliard of Calexico, a shipper of hay from Imperial Valley to Los Angeles. The truck bed was split from end to end and both the lamp-post and the tree were demolished. The engine slipped out of gear as we were in the first grade and I tried so hard to get it back in gear that I stripped the driving gear and had to coast in neutral," Cutler explained. Because of the tremendous weight of the two loads of hayed the brakes would not hold the truck and trailer.

MONROVIA ANTLES INSTALL LEADERS

MONROVIA. June 7.—Seventy-five members and officers of the Monrovia Chapter of Antlers Lodge No. 32, were installed last night with executives of the Alhambra Antlers Lodge No. 5, officiating.

Officers seated were Howard Huffman, President; Earle Nelson, Vice-President; Harry Nelson, Secretary; Vice-President; Rex Kaufman, Third Vice-President; Wendell Turner, Secretary; William Parsons, Guide; Anthony Foto, Guard; Allie Bryer, Standard Bearer. Allison Chianini, the membership includes boys from Arcadia, Sierra Madre and Monrovia.

ROAD SIGNS PLANNED

AZUSA. June 7.—Signs directing motorists to the fish hatchery at Sycamore Flats in San Gabriel Canyon will be erected by the Southern California Automobile Club, according to a secret of the Chamber of Commerce. The signs will be erected in the main forks of the canyon, also in the north forks.

DENTISTS OF STATE HOLD MEET

Teeth Experts in Annual Convention With More Than 800 Present

First Palms Imported From Africa in 1902

Indio District Now Ships From 50,000 Trees

LONG BEACH. June 7.—The thirty-first annual convention of the Southern California State Dental Association opened at Hotel Virginia here this morning for a three-day meet with approximately 800 dentists from all over the Southwest in attendance. Wives and friends of the delegates swell the total number of visitors to well over 1,000.

The opening session was called to order at 9 o'clock this morning by Dr. Guy B. Baird of Los Angeles, president of the association. Mayor Oscar Haage, himself a dentist, welcomed the visitors on behalf of the city. Dr. Lawrence C. Singleton, Santa Barbara; Dr. Julie Endemann, Los Angeles; and Dr. John E. Gruen, San Francisco, were the principal speakers at the business session, which took up discussion of various phases of dental practice.

General and sectional groups gathered for the afternoon sessions. These groups will resume their deliberations tomorrow. A feature of tomorrow morning's session will be a talk by Dr. James M. Prime of Santa Barbara, on "The Nature and Significance of the Human Teeth."

The annual business session and election of officers is scheduled for Saturday morning. Action looking toward raising the standards of the dentistry profession by State legislation will be the principal theme of the Saturday session.

The financial banquet of the association was held in the Hidalgo room of the Hotel Virginia, with Judge Ben Lindsey of Denver, famous juvenile authority and advocate of child welfare, as the featured speaker. The Denver jurist spoke on "Child Welfare."

Fear Rapid Rise of River

CALEXICO. June 7.—The rise of the waters of the Colorado River at Topock today to 114,000 second feet, led irrigation district officials here to believe that the flood at the protective levee system of the Imperial Valley might go above the 120,000 feet mark.

H. H. Clark, manager of the Colorado River Land and Development Company holdings in Baja, California, announced today that two miles had been added to the Rodriguez protective levee, forty miles west of Mexicali, and that more than 100 men were employed there at the present time.

Reaching the channel the lower reaches of the Colorado River now near Mexicali, the system of the district is continuing to expand to Clark. Should the rise of the river be rapid during its final stages it is feared that breaks will occur.

PAPERS FILED FOR AIRPORT AT UPLAND

UPLAND. June 7.—An application for an excellent municipal airport was on step nearer realization today when articles of incorporation for the Upland Legion Airport Corporation were filed with San Bernardino County Clerk Harry Allison. The Legion airport is to consist of 100 acres made up of 200 shares of stock with par value of \$100 each.

Five directors are named in the incorporation papers. H. H. Thomas of Calexico, H. C. Wood, H. C. Kirk, P. H. McQuillen and Kirk, Upland. Request has been filed with the State Corporation Commission for permission to sell stock in the airport project.

DIRECT SCHOOLS IN IMPERIAL VALLEY

EL CENTRO. June 7.—Mrs. Estelle Cavanaugh of Holtville, Mrs. Grace Ferrell of Calexico and Percy Palmer of Brawley were appointed members of the Imperial Valley County Board of Education for the coming two years at the afternoon session of the Board of Supervisors yesterday. Palmer, who is principal of the Brawley High School and Junior College, succeeds Mrs. E. L. Ferrell, wife of Mrs. Cavanaugh succeeds E. M. Grinnell, superintendent of the school. Mrs. Cavanaugh succeeds Mrs. Cavanaugh succeeds E. M. Grinnell, superintendent of the school. The school year is to begin Aug. 1.

VALLEY LOOKS FOR BIG APRICOT CROP

RESEDA. June 7.—Despite the fact that last year was a light rain season, apricots in this section and in Owenmouth, west of here, will make a good crop. In some of the orchards the trees are loaded with large fruit of fine quality and ripening color. Walnuts also are ripening well. Some walnuts were set out, but not as much as had been expected. Baby lime beans are well up in all the valley sections, and more or less additional growth is to be expected. About 10,000 acres have been planted. Under present growing conditions baby limas this year are expected to show up well in output per acre.

BOND ISSUE SOLD

SANTA ANA. June 7.—The United States National Bank was awarded \$300,000 yesterday when found guilty of transporting liquor. Sentence was suspended for six months.

Wheeler was arrested following an attempt to sell liquor to an officer here.

PARK THEATER PROPOSED

Sierra Madre "Goodwillers" Will Form Permanent Organization to Promote Summer Concerts

SIERRA MADRE. June 7.—A movement is in progress to permanently organize the Goodwillers, a group of citizens who sponsored the open air concerts in the city park last year. It is expected that the organization will be perfected at a meeting. The committee last year was headed by Joe Eastwood and W. H. H. Miller.

According to city budget reports, sufficient money remains in the park fund to construct the outdoor theater. A new plan will be also carried out this year whereby all valley cities sponsoring open-air performances will cooperate.

Various organizations of the city have also pledged their support and will have charge of several programs.

FIRST CARLOAD OF DATES SENT

Coachella Valley Industry at New Milestone

First Palms Imported From Africa in 1902

Indio District Now Ships From 50,000 Trees

INDIO. June 7.—Marking a new epoch in the development of Southern California's fruit-growing industry, the first carload lot of dates shipped from any point in this country yesterday left this city of the Coachella Valley, over the Southern Pacific for New York City.

The initial carload of date palms comprised 26,000 pounds and were sent in a refrigerator car by the Daggett Noor Date Growers' Association. The association will handle distribution from New York.

THREE MORE ESTIMATED

At least three more carloads are expected to be sent east before the end of the present year, according to Bryan Haywood, president of the association.

TWO PASADENAANS IN CLASS AT WEST POINT

WHITTIER, June 7.— A man was found dead in a light fixture in San Luis Obispo Sunday morning. The man, identified as Frank E. Miller, 21, was found hanging from a wire in the ceiling of his room at the Hotel Plaza. He had been staying at the hotel for several years.

DAMAGES SUED FOR BY WOMAN

Complaint Charges Hotel Man With Battery and Breach of Promise

Charges of battery and breach of promise were made against George Lauder, hotel operator, in a suit for \$15,000 damages filed yesterday in Superior Court by Mrs. Nella Shaler, 21, of Los Angeles.

Rev. Frank Dell, superintendent of the California Yearly Meeting of Friends, has been elected president of the college.

Arthur Reed, president of the International College at Los Angeles, has been elected president of the scriptors' lesson and study class.

The conference will be held at the First Baptist Church, and the address was given by Dr. Thomas W. Baird, Bishop of the Episcopal Diocese of Los Angeles.

The degree was conferred by Dr. Arthur Reed, president of the college.

Other pastors who participated in the service were Rev. Fred R. Trotter, of the Methodist Church; Dr. W. A. Ross, of the Community Church; Rev. S. R. Hammontree, of the Episcopal Church; Rev. J. W. Jones, of the First Baptist Church; and Rev. Frank Dell, superintendent of the California Yearly Meeting of Friends.

Other pastors who participated in the service were Rev. Fred R. Trotter, of the Methodist Church; Dr. W. A. Ross, of the Community Church; Rev. S. R. Hammontree, of the Episcopal Church; Rev. J. W. Jones, of the First Baptist Church; and Rev. Frank Dell, superintendent of the California Yearly Meeting of Friends.

VENTURA HIGH WILL GRADUATE SIXTY-EIGHT

VENTURA, June 7.— High school services for the class of 1928 will be held at the United Jewish School on June 10. The address will be given by Dr. W. A. Ross, of the Community Church.

Rev. J. W. Jones, of the First Baptist Church, will deliver the sermon on "The Way of Life."

Other pastors who participated in the service were Rev. Fred R. Trotter, of the Methodist Church; Dr. W. A. Ross, of the Community Church; Rev. S. R. Hammontree, of the Episcopal Church; Rev. J. W. Jones, of the First Baptist Church; and Rev. Frank Dell, superintendent of the California Yearly Meeting of Friends.

NEW GROUP CHOSEN TO LEAD APPEAL

Committee Named to Initiate Jewish Drive for \$100,000 Fund

Seymour Rites to be Tomorrow

Funeral Services for Alfred W. Seymour, 73 years of age, life-long friend of the late Col. Roosevelt and one of the oldest graduates of Harvard University, will be conducted at 11 a.m. tomorrow at the funeral parlor of Edwards Brothers, 1000 Venice Boulevard.

Mr. Seymour died Wednesday evening following an attack of apoplexy.

He and Roosevelt were associated intimately during their college days and their friendship continued through the colonel's death.

Mr. Seymour was a member of the Cornell family, which founded Cornell University and always was interested in its welfare.

He had lived in Los Angeles for several years and was engaged in the manufacture of cosmetics. He leaves his widow, Mrs. Frances Seymour, who lives at 2850 Leonard avenue.

The funeral service will be conducted by Rev. Alfred Williams.

NEWS OF THE CAFES

COSMOPOLITAN CLASS AT JUNIOR COLLEGE

SANTA BARBARA, June 7.— Students at Watson Junior American Church in Santa Barbara, will deliver the graduation address to the students of the high school here on the day it was announced today.

Rev. Dr. E. B. Moore, pastor of First Christian Church, will graduate in June at the Junior High School on the day it was announced today.

PARADETTE TROJANS TO Be Installed

FIGHT OVER DAM BELIEVED ENDED

Early Start of San Gabriel Structure in Sight

Factions Offered Plan for Settling Old Row

Document Expected to be Ratified Soon

What is hoped to be a solution of the involved question over construction of the flood-control dam in San Gabriel Canyon was seen yesterday, when it became known that an agreement has been drafted for submission to the several groups active in the controversy.

The agreement contemplates the signature of the representatives of the San Gabriel Valley Protective Association, the San Gabriel Water Rights Association, the cities of Long Beach and Whittier, as parties of the first part, and the California Taxpayers' Association, city committee, and the Municipal League as parties of the second part.

MEETING WEDNESDAY

The board of directors of the California Taxpayers' Association will meet next Wednesday to ratify the document, according to Dr. Milbank Johnson.

The two groups mentioned above divided on the policy outlined by the Board of Supervisors for the construction of the dam. The first demanded that a high dam be erected in accordance with the vote of the people in 1924. The taxpayers association attacked the plan and contended for a low dam. The latter, in a recent decision, the high-dam advocates won. However, the association and league have enjoined the construction of the high dam.

The agreement which has been drafted, it is hoped, will satisfy all contentions. It provides that the sum of \$25,000,000 be expended on the dam, this being the sum allocated from flood-control bond funds. In the event the dam costs more than this sum the additional cost must be met by local assessments.

LIMIT TO MATERIALS

The dam is to be limited to 4,228,600 cubic yards of mass concrete. If, however, due to excessive excavation, not now contemplated, it becomes necessary to enlarge the concrete mass, the San Gabriel Valley interests reserve the right to add more funds.

It also is agreed to petition the Superior Court for an amendment of the decision on the controversy to coincide with the agreement, while the taxpayers' association accedes to the request to dismiss pending litigation.

Ratification of the document by all interests concerned is regarded as a signal victory for the county, as it means construction can begin immediately upon the dam, which is needed by residents of the San Gabriel valley. If the fight is continued against erection of the high dam, it is said, litigation may be dragged out for years.

CONVICTED ROBBERS TO ASK MERCY

Probation Hearing Set on Plea of Trio Named in Messenger Attack

Arthur Clessey, Horace Miles and William Woods, convicted of second-degree robbery in connection with the \$50,000 holdup at the Bank of America last March 2, last, or two Pacific National Bank robbers yesterday filed application for probation when they were taken before Judge Edmonds of Superior Court for sentence. Hearing on the applications was set for the 28th instant.

This action was taken after the court had denied Defense Attorney Stanley Vise's motion for a new trial. In allowing the applications to be filed, Judge Edmonds cut out a legal question as to whether the defendants can legally be admitted to probation. The State law denies probation in robberies where a deadly weapon is used, and, according to his evidence in this case, five revolvers were employed in holding up the bank messengers.

However, the code describes second-degree robbery as one in which no deadly weapon or deadly weapons are used, and the defense for the court to decide is whether the jury's verdict places the hold-up in this class of crime.

The bank messengers were robbed while transporting a large sum of money from the bank's headquarters to a Hollenbeck Heights branch.

Club Woman Warns Youth

Mrs. Samuel S. Sneath of New Orleans, who in 1916 was elected for four years as first vice-president of the American Federation of Women's Clubs, is a guest at the Auditorium.

"I am more or less removed from active participation in women's clubs, but one should never lose interest in our young people and maintain the standards," she said yesterday afternoon. "I have every confidence in young people of today, but I ask them to go slow on such new fads and fancies as companionate marriage and the discussion of birth control."

ACTION ON TWO BILLS DELAYED

Next Session of Congress to Debate Measures

White and Dill Draft New Radio Legislation

Vast Array of Talent Fills KHF Program

DR. RALPH L. POWER

Congress had but little legislation affecting radio pending when the session ended on May 29, a final check-up reveals. Having amended the Radio Act of 1927 and extended the life of the Federal Radio Commission for approximately a year, the legislators seem well pleased with their work.

One measure of importance acted upon at the end of the session was the bill of Representative White, Maine, to extend the 1910 Radio Act so as to require that all vessels clearing from any port of the United States, and licensed to carry fifty or more persons either as passengers or crew or both, shall be equipped with apparatus for radio communication capable of transmitting and receiving messages over a distance of at least 100 miles, day or night, with an auxiliary power supply independent of the vessel's main power plant, which enables the sending apparatus to operate even if a distance of at least four hours.

TWO BILLS HELD OVER

Then there is also the measure introduced by Senator Dill, Washington, to combat alleged monopolies in patent rights, which is aimed largely at the Radio Corporation of America and is intended to prevent the corporation from acquiring patent rights for the purpose of restraining competition and fostering a monopoly.

White's bill was introduced so late in the session that no action could be taken on it, and hearings were held early in the session on Dill's measure, which at that time provided for the forfeiture of patent rights held by persons or concerns convicted under laws prohibiting monopoly.

Policing the hearings bill was rewritten to meet objections that had been pointed out, the amended measure being introduced so late in the session as to preclude any action. It seems probable that both bills will be pushed during the session of Congress beginning in December.

BIRD PROGRAM

There should be a mighty collection of birds around the antenna of KHF, the Don Lee station, by Saturday morning if birds have any way of picking up radio broadcast. For tonight's program from 10 to 11 p.m., the station will present a musical hour, there will be broadcast a program of songs and selections of bird life that should stump any ornithologist. Included in the arrangement are: "Love Birds," "The Owl Turned to an Angel," "Birds," "The Broken-Horned Sparrow," "The Merry Lark," "The Gentle Dove," "The Magpie and the Parrot." Interpretations have been arranged by Arthur Kay, music director, and will be presented by the entire studio orchestra.

The entire broadcast for tonight must have some influence on the KHF staff, for from 7:30 to 8 o'clock on the Frank Meline program will interest listeners in a characteristic intermission entitled "Mice and the Trap," the male quartet will sing "Deep River" and after that Wesley B. Tourtellotte, the organist promises to go into the African jungle for a number in order to be able to compete with the outdoor atmosphere selections.

SURPRISE HOUR

Glancing over the program for tonight's broadcast, Elvin Allman decided there was nothing left for her to do for her "surprise package" but go into the sky, pick out the colors from the rainbow, and arrange a musical continuity interpretation. The program will feature shades and tones, and she has arranged for the 8 to 9 period to be elaborately colorful.

After such a vacation in the great outdoors, the radio audience at 9 o'clock will get a different combination of music and entertainment, featuring a musical continuity entitled "Mice and the Trap." The male quartet will sing "Deep River" and after that Wesley B. Tourtellotte, the organist promises to go into the African jungle for a number in order to be able to compete with the outdoor atmosphere selections.

11 AM to 12 noon

CHARITY WORKER'S EFFORTS REWARDED

Mrs. Robert Heffner

GOOD WILL BACKED BY \$50 PRIZE

Society Matron Who Gives Services in Juvenile Court Writes Best Essay

Mrs. Robert Heffner, Los Angeles society matron, works as an assistant in the Juvenile Court under Superior Judge Scott for no compensation save the good will of those she serves.

Nevertheless good will is not the only consideration that she receives for her services. It was revealed yesterday, when Judge Scott let it be known that Mrs. Heffner had received a \$50 prize for an essay concerning legal questions confronted by juvenile court orphans.

Investigation revealed that Mrs. Heffner entered an essay in the annual contest of the Phi Delta Sorority and won the first prize.

The subject of her essay was "The Liability of Charitable Organizations."

It deals with the liabilities of charitable organizations that administer aid to numerous individuals.

The point of the essay is that no person is entitled to damages from a charitable organization for asserted damages when he accepts its aid.

BAR'S VOTE ON JUDGES ANNOUNCED

Peblisito Conducted to Pick Eighteen Candidates Produces 1548 Ballots

A detailed statement of the plebiscite conducted by the Los Angeles Bar Association in choosing the membership of the Superior Court was issued yesterday from the office of Secretary Varell, following the approval of the tabulation of the voting by the board of trustees of the association.

According to the report, 2500 public ballots were mailed to members of the association, and 1548 returned for tabulation with fifty-two rejected, making a total of 1546.

Each candidate, under the manner of voting, was required to receive 40 per cent of the total vote cast to be considered as qualified.

Following is the total "qualified" and "unqualified" votes as received by each candidate, from which eighteen receiving the highest percentage were endorsed. Two of the candidates were disbarred because they did not receive 40 per cent of the total vote cast.

The result of the election is as follows:

John J. Schumacher, 1548.

James H. Baughman, 1546.

Charles E. Darrow, 1546.

John W. Lutter, 1546.

Emmet H. Wilson, 1546.

Walter A. Ham, 1546.

Marshall C. McComb, 1546.

John C. Chaplin, 1546.
